## WORK EXPERIENCE

### **Freelance – CAD Modeling (Sneaker Design)**

Remote | Sept 2025 - Oct 2025

- Hired to aid sneaker design students at SCAD bring their visions to life. Arika Hoffman, one of the people responsible for bringing the sneaker design minor to life brought me on.
- Produced 3D printable Models of each student's shoe designs, meeting regularly to discuss where their sketches diverged from possible manufacturing capabilities.

### **Taller Paralelo**

Bogotá, COL | Jun 2024 - Aug 2024

- Modeled apartment interiors in Rhino based on floorplans and client-provided references for high-end architectural renderings
- Enhanced rendering workflows by using Photoshop and AI tools to edit lighting, materials, and composition, reducing editing time for the team.
- Supported rendering pipeline by building scene files, modeling furniture and objects, and preparing materials for revision cycles.
- Collaborated with a team of 5 architects to finalize renders for client approvals and incorporate revision feedback.

### **Project Lead at Deloitte (SCAD x Deloitte Collaboration)**

Savannah, GA | Sept 2023 - Nov 2023

- Co-led a 20-person interdisciplinary team to design a digital case management platform for Child Protective Services (CPS) workers in partnership with Deloitte.
- Developed project schedules and sprint plans in collaboration with other leads; coordinated weekly progress check-ins and client feedback sessions.
- Directed a sub-team of UX designers in creating a working digital prototype tailored to real-world CPS workflows.
- Led multiple rounds of presentation rehearsals, coaching teammates on delivery and client engagement.
- Delivered a high-fidelity prototype and strategic recommendation deck to Deloitte as part of final handoff.

### **Freelance – Cosmetic Bottle Designer**

Savannah, GA | Jan 2023 - Apr 2023

- Collaborated with a Fragrance & Beauty capstone student to design a family of cosmetic product bottles aligned with her existing brand identity.
- Translated client mood boards and creative direction into 3D CAD concepts; iterated multiple forms to match brand vision.
- Produced photorealistic renders and a short, animated product reveal for portfolio and promotional use.
- Delivered 4 high-fidelity 3D printed prototypes used in a professional photoshoot and final presentation.
